

CATARRH OF KIDNEYS AND BLADDER

Peruna Saved Me

Mrs. Powers, whose address is given below her portrait, is an ardent friend of Peruna. She says:

"I am thankful to tell you that my old trouble has never bothered me any since you received my testimonial. Any one wishing to know the facts in my case, if they will write me I will be glad to answer. Your medicine has saved me, and gave me perfect health. I frequently meet friends that knew me when I was in poor health. They ask me what has made such a change in me. I always tell them that it was the nerve remedy, Peruna. I shall praise Peruna as long as I live."

Catarrh of the Internal Organs

Mrs. A. T. Powers, R. R. 7, Box 121, London, Ohio, writes: "I write to thank you for the wonderful good your Peruna has done for me. I was a sufferer from kidney and bladder trouble for twenty-two years. Two years ago I began to take Peruna, and I only took about three bottles and today I can say I am a well person."

Catarrh is liable to affect any of the internal organs. This is especially true of the bladder, which is very frequently the seat of catarrh. This is sometimes called cystitis.

Mr. James M. Powell, No. 1820 W. Walnut St., Rosedale, Kansas, writes: "About four years ago I suffered with a severe catarrh of the bladder, which caused continued irritation and pain. I was miserable and could not stand up or walk for any length of time without extreme weariness and pain. I began taking Peruna and it greatly relieved me and in eleven weeks I was completely cured, and felt like a new man."

Those who object to liquid medicine can now procure Peruna in Tablet form.

FIFTY YEARS IN BED.

Yet Brooklyn's Famous Invalid Supports Herself By Making Fancy Work.

New York, Feb. 7.—Miss Mollie Fancher, 67 years of age, Brooklyn's famous invalid, Friday began her fiftieth year in bed and received and answered messages from friends all over the county.

In June, 1865, Miss Fancher sustained the injuries that have made her an invalid and an object of interest to physicians. On February 3, 1866, she became helpless and resigned herself to a life in bed.

Despite her affliction, Miss Fancher has been happy during all these years and has helped to support herself with embroidery and crochet work.

Rising Rivers.

The flood situation in the upper Ohio valley is growing serious. The Central Union depot at Cincinnati has been invaded and the offices moved out. Green river at Spottsville was on a high Sunday, and the lower Ohio is getting out of its banks. Hundreds of families have had to abandon their homes.

WAVED FAREWELL BY PROXY

After This, Who Shall Say English Business Man Is Not Full of Resources.

The other morning, as a departing transatlantic steamer was casting off its lines and swinging out into the stream, an elderly business man hastily embraced a lady who was one of the passengers, and rushed down the gang-plank to the wharf, says the London Answers.

Going hurriedly up to a melancholy loafer who was watching the busy crowd, the gentleman drew him behind a pile of baggage and said:

"Want to earn a shilling or two?"

"You bet I do."

"You see that lady in black on the bridge there?" said the elderly one.

"Certainly."

"Well, that's my wife going abroad. Now, of course, she'll expect me to stand here for the next 20 minutes, while the steamer is backing and filling in, waving my handkerchief and watching her out of sight. D'ye see?"

"I do, sir."

"Well, I'm too busy to humbug about here; stop to buy, biz to attend to. She's a little near-sighted, so I'll just engage you to wave this handkerchief instead. It's a big one, with a red border, and as long as she sees it she'll think it's me. Come up to 202 Bangor street when they are well off, and I'll pay you."

"Sposin' she looks through a telescope, or somethin'?"

"In that case you'll have to bury your face in the handkerchief and do the great weep act."

"That'll be extra payment."

"All right. Time is money. Look sharp, now. You can kiss your hand a few times at, say, a penny per kiss."

And closing his watch with a snap, the overdriven business man rushed off.

HISTORIC FIND IN PALESTINE

Chicagoan Reports Discovery of Floor of Church Dating From Third or Fourth Century.

Dr. George L. Robinson of the McCormick Theological seminary, who has returned to Chicago after a year's study of ruins in Palestine, reports the finding of an ancient mosaic floor one mile south of St. Nebo.

"The floor was discovered by an Arabian farmer who dug into the earth to build a foundation for a barn," he said. "The floor was in one of the early Christian churches and was built in the third or fourth century."

"Flowers, animals and Greek inscriptions are inlaid in most artistic manner. The mosaic is in a perfect state of preservation and looks as though it might have been laid yesterday."

As a result of his studies Doctor Robinson has come to the conclusion that the true Kadesh of Moses and the Israelites is properly located at Alm Kadees. Doctor Robinson said he believed that the Catholics were correct in their contention that Zion is located on the southwestern hill of Jerusalem and that Calvary is underneath the church of the Holy Sepulcher.

How Much Is Your Farm Worth?

And how much would it be worth if it was all fenced with good woven wire?

The chances are that there are a good many places around the farm that require new fences. Maybe the farm house grounds need fixing up a bit.

If all the weak spots were fixed up with new wire, wouldn't the place sell for at least \$1,000 more?

Of course you might not want to sell, but even so, it would be a whole lot of satisfaction to know that everything was ship-shape. You might save some time running after stock that had broken out; you might possibly prevent injury to some animal which is apt to get tangled in a bad piece of fencing or a defective gate.

If there are any places that need a new stretch of fence or a new gate, we are in good shape to supply your requirements. We are selling the famous Michigan and Pioneer lines and we have a style to just suit your requirements.

You may be familiar with these lines. If so, you know the goods are the long service kind. They are fully guaranteed by the manufacturers and we sell them to our customers with every assurance that they will give satisfaction.

As we buy in large quantities we are able to make a very favorable contract. Securing the benefit of a low price and the lowest possible freight rate we can sell the fencing for less money than is ordinarily asked for the same class of goods.

Come in and get Prices—We can interest you.

American Invasion of Canada.

One hundred years ago an American force of 720 men, in command of Gen. Duncan McArthur, penetrated 200 miles into Canada and captured numerous prisoners and large quantities of war supplies before beginning the return to Detroit. The raid was a part of a bold plan projected and partly accomplished by General McArthur with the object of conquering upper Canada, and the total success of which was prevented only by the failure of the forces of General Izard to co-operate with him. General McArthur was a distinguished soldier of the War of 1812 and at the time of his daring raid he was in command of the Army of the West. In later years, following the close of the war, he served as representative in congress and as governor of Ohio. His death occurred at his home near Chillicothe, O., in 1839.
